

# 2024 Children's Health Equity VOTER'S GUIDE

*This guide shares The Children's Partnership's positions on three California ballot propositions. We urge voters to keep children's health equity top-of-mind for all choices this election.*

## **NO on Proposition 35**

*Protect flexibility for children's health funding.*

Prop 35 removes state budget flexibility and severely limits future MCO tax revenues, jeopardizing Medi-Cal expansions and safety net programs benefiting children's health, including community health workers, mental health services, and continuous coverage for children under 5. Prop 35 leaves no room for community voice, putting special interests in charge of health care funding.

## **YES on Proposition 5**

*Give cities tools to create affordable housing.*

Prop 5 is targeted to the urgent housing needs of local communities. This measure gives local governments a more realistic financing option to fund an increase in the supply of affordable housing, and to address the numerous local public infrastructure challenges cities, counties, and special districts are facing.

## **YES on Proposition 33**

*Stable housing is essential for children's health.*

Prop 33 gives local communities the right to stabilize rents and make apartments more affordable for low-income and middle-income renters, addressing root causes of homelessness, skyrocketing rents and unaffordable housing.
